Request of Confidentiality

**Transoma Medical, Inc**  
**FCC ID: UFYTSIM2010**  
**FCC Part 15 Certification**

Ladies and Gentlemen,

In accordance with 0.459 of CFR 47, **Transoma Medical, Inc.** hereby requests confidentiality of all Block Diagrams, Circuit Diagram, Parts List, interior photos and Operational Description attachments for the subject application. Further, it is requested that Transoma's response to question 4 contained in FCC application review correspondence be kept confidential. The response contains details of communications protocols that could be of benefit to competitors and is not released to the public.

The interior photos display proprietary information to Transoma which is not released to the public. Further, the interior construction is not available to a purchaser due to the sealed construction of the implant.

These documents contain detailed system and equipment description and related information about the product which **Transoma Medical, Inc.** considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, **Transoma Medical, Inc.** considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

Luke Strawn  
Senior Electrical Engineer
